

Full Farce

Air Support, Raid teams, Mounted police, Dog section, PCSO's

Detectives unit to make NEARLY 6 arrests.

Now lets look at the figures they are trying to use to help destroy our community.

They say 4000 Crime reports, So how many Convictions

17% of House Burglaries, So do all the burglars live in Gresham?

That points to the fact that 83% are committed elsewhere.

10% Vehicle crime. What type of crime?

That points to the fact that 90% are committed elsewhere.

12% Of the towns Violent crime, Result of alcohol sold in to many outlets

That points to the fact that 88% are committed elsewhere.

23% of the towns Robberies So do all the robbers live in Gresham

That points to the fact that 77% are committed elsewhere.

27% Dealer a day Result of landlords not vetting tenants.

That points to the fact that 73% are committed elsewhere.

The claim that Gresham is responsible for 10 % of all recorded crime

What are the actual numbers?

? What is the conviction rate in numbers ?

The major crime that is being committed in our area is a democratically elected councillor is denounced by a so called Labour party for defending his electorate from a land grab by Big Business. The likes of Erimus boarding up houses to invite children to break in as reported in the Gazette there has been fires already in some of the houses. The removal of dedicated wardens and CPO's must stop. We need unmarked police cars to catch the criminals on the hop and a better conviction rate. The police must STOP using percentages just give us plain numbers. This should be the norm not a short term measure.
